

Imagination Station

Come get an idea to spark your own imagination!!

Do you want to share a success story with other after school programs just like you?

Bring your success stories to the 2009 21st Century Community Learning Centers Conference in July.

What can I bring to share?

Think of a special event, family night, community event or just a project that your program has put together this year that you would like to share with others.

We will have a special room set up for this purpose so feel free to be creative.

Please send us the information below via email to Leslie.Schweitzer@state.sd.us if you plan to bring something to share.

Name of after school program: _____

Let us know what you need to display your program's successes. We will try to accommodate you the best we can.

_____ table

_____ wall space

_____ electricity
